FALSE EYELASHES

Synthetic strip eyelashes which are soft, thick and long, so they give your eyes more depth and character. Application: 1. Use tweezers or your fingers to gently detach the eyelashes from the packaging by holding the external end. As you are holding the eyelashes in the middle, measure them against your eyelid. If they need to be shortened, trim the external edge. 2. Apply a thin layer of glue to the upper edge of the eyelashes. Let it set for about 30 seconds. 3. Gently place false eyelashes as close as possible to your natural eyelashes and gently press them against your eyelid. Please note: even though the eyelashes look similar, they have two different shapes. Pick the appropriate shape for the right and the left eye. The kit includes glue.
